Informatics Student / Software / Engineering Intern Applicant

Software | Computer Architecture | IT Support | QA/Testing | AI

Informatics student at Yuan Ze University with experience in IT support, troubleshooting, and project-based software development. Building hands-on projects across frontend development and computer architecture, with interests in software engineering, QA/testing, and technical systems. Holds a Taiwan student work permit.

PROJECTS

8-Bit CPU Architecture & Simulation

Aug. 2026 - Present

Self-Directed Computer Architecture Project

- Designed and simulated an SAP-1-inspired 8-bit CPU to analyze system-level computer architecture.
- Implemented an 8-bit ALU for binary addition/subtraction, plus registers, RAM, and a program counter using latches and flip-flops.

Ground Level Languages

2026

Language Learning App Prototype / In-Progress Personal Project

- Developing an in-progress sound-first language-learning web prototype with dynamic UI, multilingual content structure, audio interaction, JSON data, and responsive design.

AS ONE

2026

Browser Game / Interactive Web Project

- Developed as a rapid prototype/game-jam style project, practicing scope control, debugging, and iterative design under time constraints.

Personal Website & Technical Blog

2025 - Present

Portfolio Website / Personal Project

- Built and maintained a portfolio website documenting projects, software learning, design decisions, and development process.

TECHNICAL SKILLS

- Languages: Python, C++, JavaScript, TypeScript
- Tools: Digital Logic Simulator, Git, GitHub, VS Code, Excel
- Core Competencies: Frontend Development, Computer Architecture, Logic Verification, System Debugging, QA/Testing, AI

EDUCATION

Yuan Ze University

Expected 2028

Bachelor's in Informatics

Taoyuan City, Taiwan

WORK EXPERIENCE

Tulane Technology Connection

Oct. 2023 - Aug. 2024

IT Specialist

New Orleans, LA, USA

- Supported students and faculty with technology product selection, troubleshooting, and technical communication for Mac, iPad, Dell, and university systems.
- Managed product/order data using PIMS POS and Excel, preparing structured reports for vendors including Apple.
- Developed technical support, documentation, and problem-solving skills in a university IT environment.

ADDITIONAL EXPERIENCE

Pontchartrain Partners — Facilities & Maintenance Specialist

2017 – 2022

Canal Street Veterinary Hospital — Veterinary Assistant

2015 – 2017

CERTIFICATIONS & LANGUAGES

English: Native | Mandarin: Basic, TOCFL A1 | Work Authorization: Taiwan student work permit
